

You are cordially invited to join the Santan Junior High staff and students on **Tuesday, February 7th**, for a showcase of student work, student led conferences and special presentations. The events of the evening will include:

12:00—4:00pm Individual student conferences

Conferences are currently being scheduled by the teams of teachers. Our goal is to communicate our concerns with parents and assist each child in his/her academic, social, and personal growth. Any parent that has not been scheduled that desires an individual conference is asked to please contact your child's team to discuss a time that is available.

Individual student parent conferences are available through appointment only. Please note that the 6-7PM time **is not intended for individual conferences.*

6:00—7:00pm Student-Led Conferences

Parents will tour their child's classrooms with their child as their guide! They will be a part of the learning projects as their child presents information learned this school year. You may enter and exit classrooms as you please, but try to attend each classroom. Note: Teachers have prepared special classroom activities to showcase students' growth, but will not be available for individual conferences during this time as a confidential setting will not be available.

6:30—7:00 pm Jr. High Cafe: Science Fair

Participants and their Science Fair projects will be displayed in the Jr. High Café. A short ceremony will be held to congratulate SJHS's 1st, 2nd, and 3rd place winners.

WE LOOK FORWARD TO SEEING YOU!
